Price Options

1. The BenguFarm software package has modules for beef cattle, sheep & goats, game and pigs. Depending on which specie or species you are farming with, you buy a specific module or modules. For farmers who already have purchased the beef module or purchase it now purchase also the sheep & goats module (or vice versa), the price of the second module is only R4 650.
2. A stud breeder who are a member of one of the following breeders' societies that endorse BenguFarm, get 5% discount on the normal price of the BEEF module (e.g. R6 600 instead of R6 975): Afrikaner, Angus, Bonsmara, Boran, Beefmaster, Braunvieh, Charolais, Drakensberger, Gelbvieh, Hereford, Hugenoot, Nguni, Pinzgauer, Red Poll, Santa Gertrudis, Senepol, South Devon, Sussex and Tuli.
3. BenguFarm MOBILE is an Android and iOS application (app) which can be installed on a smartphone or tablet and used with the BEFF and SHEEP & GOATS modules. There is a separate Andriod app, BenguFarm MOBILE for Game, that can be used with the GAME module. A user must have a BenguFarm license for the applicable module to purchase BenguFarm MOBILE.
4. The GENETICS module is an optional breeding module for stud breeders. It enables a breeder to manage the breeding of his herd by determining the best matings in order to achieve his specific breeding objectives. Breeding values supplied by SA Stud Book, the ARC or Breedplan are used for this. The GENETIC module can be used with the BEEF and the SHEEP & GOATS modules.
